AI PLAGIARISM RESPONSE GUIDELINES: LONG FORM WRITING

Submit assignment to Turnitin. If the AI score is above 30%, review further:

#1 Student completes DRAFT Reflection Starter and reworks assignment.

If a student denies using AI and/or adequate resolution isn't accomplished continue on with the next step.

#2 Compare writing to previous writing samples from the student. If plagiarism is still suspected, continue on with the next step.

#3 Have a conversation with the student regarding the assignment.

*This should come from a place of curiosity with focus on gaining clarity while maintaining the relationship.

Conversation Starters:

I see that your paper was flagged by Turn It In as having ____% of it using AI.
Add in guiding questions from below to continue the conversation

Recommended guiding questions:

- Why do you think your paper was flagged as having AI included in it?
- What was your writing process?
- Did you use Grammarly
- What tools did you use?/How did you use them?
- Can you explain the thought process behind your approach to this assignment?
- How did you choose the information you included in your work?
- Can you describe the sources you used and how they contributed to your understanding of the topic?
- Can you explain the reasoning behind your arguments or conclusions?

Possible Remedies:

**Remedies should focus on helping the student learn from their mistakes and improve their academic skills.*

- Extension of assignment; re-do assignment with teacher
- Re-do work on alternate assignment
- Defend answer orally

#4 If an adequate remedy is not agreed upon between the teacher and student the situation will be forwarded to school administrators for further investigation and/or consequences.

#5 If a student is refusing all efforts to come to a resolution a zero can be given for the assignment.
