

Vail School District Common Technology Values

Common technology values guide our creation of intentional systems and frameworks for the safe, thoughtful, and effective use of technology.

Through these values we seek to ensure digital equity, foster critical thinking, enhance healthy social connections, and prepare students to thrive in a diverse world.

IN VAIL, WE...

ENCOURAGE BALANCED TECHNOLOGY USE TO:

- Prioritize wellness and mental health.
- Partner with parents as technology evolves to ensure a collaborative approach.
- Leverage technology use that emphasizes the development of social skills.
- Reinforce the unique benefits of in person relationships for our well being.

PRIORITIZE PRIVACY AND MODEL ONLINE SAFETY TO:

- Emphasize age appropriate use of technology.
- Promote effective cybersecurity practices.
- Teach the importance of safeguarding personal information.
- Empower individuals to protect against online threats.

PROMOTE DIGITAL CITIZENSHIP AND ETHICAL TECHNOLOGY USE TO:

- Uphold the principle of integrity in academic and digital work.
- Cultivate a positive and appropriate digital identity.
- Recognize the long lasting consequences of digital actions.
- Take responsibility for our actions whether online or offline.

EMBRACE THE EDUCATIONAL POWER OF TECHNOLOGY TO:

- Foster an engaging learning experience.
- Adapt instruction to align with evolving technology.
- Customize learning environments to continually meet students' diverse needs.
- Stress effective communication and creativity through multiple digital platforms.
