

DIGITAL CITIZENSHIP

A PARENT NIGHT

MORE ON THE
OTHER SIDE

Raising kids in a digital world isn't optional anymore.
Neither is knowing how to keep them safe in it.

Join us for an informative parent-only evening focused
on helping families navigate screen-time, online
safety, social media, gaming, and digital responsibility.

Get practical tips, conversation starters, and a clearer
understanding of what your child is experiencing online.

Date: April 23rd, 2026 | 6:30 PM – 8:00 PM

Location: Esmond Station – Library

Audience: Parents/Guardians

FREE Childcare Available

Advance registration required

Sign up for childcare, register
yourself, and submit any questions
or topics you would like discussed
in advance!

DIGITAL CITIZENSHIP

A PARENT NIGHT

Digital Citizenship is the safe, responsible, and respectful use of technology. It's about teaching kids how to protect their personal information, communicate appropriately online, and make smart choices in digital spaces, just like we expect them to do in the real world.

- **Digital etiquette:** Using good manners online, such as being respectful in comments and messages.
- **Digital literacy:** Knowing how to find, evaluate, and use information online.
- **Online safety:** Protecting personal information and avoiding scams or harmful content.
- **Digital rights and responsibilities:** Understanding your rights (like privacy) and responsibilities (like respecting others' content).
- **Cyberbullying prevention:** Recognizing and preventing harmful online behavior.
- **Digital footprint:** Being aware that your online actions leave a lasting trace.
